

Czarina Is Furious Because The Allies Permit Dethronement Of Greek King

By Isaac Don Levine

THE allied treatment of Tino—a king who has been dethroned—has infuriated the Czarina. She suggested that the czar request the French government to recall Gen. Sarail, commander of the allied forces in Macedonia. Gen. Sarail was recalled by the government subsequently, but not until several months after the fall of the Romanoffs.

Our diplomats behave shamefully, cries out the Czarina, and if Tino is kicked out it will be our fault, herid and unjust. Tino was kicked out, indeed, but mercifully, and is now in safety in Switzerland, whereas the Russian empress with her husband was kicked out unmercifully.

That Rasputin's military advice was taken seriously by the czar appears from one of the letters published today. The Czarina writes that the czar was worried because Rasputin did not carry out the wishes of the emperor regarding the strategy of the operations of the fall of 1916. What these wishes were is brought out in the correspondence. They were Rasputin's repeated coun-

Boy Scout Week Will Give Nation Chance To Learn More About Boys

AS a part of the tenth birthday anniversary program of the Boy Scouts of America, the week commencing Memorial day, May 30, and ending Sunday, June 6, will be observed nationally as Boy Scout week. In 17,000 communities where Scout troops are established, a program for outdoor activities will be carried out. The remarkable growth of the Boy Scouts of America has given a great stimulus to the outdoor activities of American boys.

Boys as Scouts have been taught to care for forests and to fight forest fires. They have gathered information for numerous departments of forestry, sometimes collecting data on the trees of an entire state. They have engaged in fights against insect pests and have made notes on different varieties of birds.

Thousands of American boys who a year or so ago were absolutely helpless in the open can now be depended upon to find their way about, to cook their own meals, to choose a proper camp site and to erect a comfortable shelter. Thousands of American boys who formerly knew little or nothing of nature can now recognize many different kinds of trees and give the names of diseases of wild flowers; can easily recognize the more common birds and know enough about mushrooms to avoid being poisoned.

The activities of Boy Scout week will include special services in churches, outdoor rallies, overnight camps, and other activities.

Other papers to write had and forbid good articles concerning Tino and Greece. Vito shamel. "Go! Kiss your kisses, from your very old."

"This is a strictly private letter of Pahlis to Tanev. One has made you an unjust thing. I honestly should give him back his rank, he has been a good man. He has done worse things and is in no way touched or reprimanded, and Pahlis has suffered innocently. Give to him back now, before I come, so as to show it's you alone who have done it."

Russian Army's Difficulties. "Tarskoye Solo, Sept. 25, 1918. "My Own Beloved Darling: "Sweetheart, I saw Katsarov yesterday, and we had a long talk. Then Paul told me about interesting letters from Raup and Ribsky, and from others I have heard, and all say the same thing, that it's a second Verduin. We are sacrificing lives for nothing, pure obstinacy. Oh, give your order again to Brusilov."

That Store That Gives Your Dollar a Long Ride. POTTER, HENNESSY & WINGO CO. 200 Main Avenue. Phone 342. "Right on Your Way Home"

READ THIS All persons who are suffering from Hay Fever and kindred diseases and desire immediate relief, are requested to call at 716 Caples building. B.E. Thompson

Just to Remind You

- 1.—That Sterchi Bros. Furniture Co. in El Paso is one of thirteen big Sterchi stores.
- 2.—That it is the largest and best Furniture-establishment in the southwest.
- 3.—That "It Always Costs Less at Sterchi's." This is practically a universal fact.
- 4.—That Sterchi has five big floors, basement and warehouse filled with furniture.
- 5.—That the Sterchi interests operate four big factories which make thousands of dollars worth of furniture.

See Sterchi First

The little "tip" we gave you about seeing Sterchi first should always be kept in mind. It will pay you well to remember it. The wonderful stock of furniture offered at Sterchi's for your selection, and the great buying facilities of Sterchi, make range and price always without peer.

"Have Shipped Ten Cars"

Last Wednesday we announced that our Mr. E. Sterchi had wired us: "Have Shipped Ten Cars." We again call your attention to this fact as evidence of the purchasing power of Sterchi Bros. This power means reduced cost to you, and the best in El Paso for the money.

Largest Exclusive Furniture Establishment in Southwest

We maintain at all times our claim to being the LARGEST EXCLUSIVE FURNITURE ESTABLISHMENT IN EL PASO or the SOUTHWEST. In floor space, in quantity, quality and value of furniture, in price, in service, in all factors that make for your benefit in the furniture line, Sterchi takes the lead.

STERCHI BROS. FURNITURE CO.

Largest—Best Equipped—Lowest In Price

These Tires Are a Revelation

The Brunswick is frankly a combination of the best in tire building.

There is one trend that's supreme beyond question. And that is now on Brunswicks.

There is one side-wall construction, which, by every test, holds the summit place for endurance. And that one was adopted for Brunswicks.

Fabrics differ—up to 30 per cent—in their strength tests. On Brunswicks the maximum long-fiber is the standard.

There are certain additions, each one expensive, which add vastly to tire mileage. The Brunswick embodies all these extras.

There are no patents, no secret formulas to prevent any maker from building the best. It is simply a question of knowledge and skill—cost plus care.

Brunswick standards are known the world over. The very name certifies an extraordinary tire. Yet Brunswicks cost no more than like-type tires.

Buy ONE Brunswick. It will prove that a better tire cannot be bought, regardless of price.

THE BRUNSWICK-BALKE-COLLENDER CO.
Dallas Headquarters: 611 Main St.

HOROSCOPE

SUNDAY, MAY 30, 1920.

NEPTUNE and Jupiter are in minor aspect this day, according to astrology.

There is a way making for remembrance and reflections, and for that reason the mind should be carefully closed against all thoughts that do not bring serenity.

All the better control man and woman to cultivate positive mental attitude, lest the effect of chaotic conditions in the world be destructive to right ideals and progressive effort.

This is not a favorable day for forward movements of any sort and it is wise to delay plans as well as initiative.

Travel is not well directed during this configuration. Storms at sea may be expected.

Revelations concerning methods of education may be numerous in the next few weeks and again sweeping reforms are predicted.

The secret declares that men in large numbers will become teachers owing to changes in school policies and increases in financial resources.

Jupiter is in a place most threatening to persons at the head of col-

leges and universities in which there will be a period of startling change. Again main pictures appear to be much in the past, but the new is owing to new men to which they will be applied in disintegrating knowledge.

During this way there may be a tendency to distort facts and to play with the truth, as Neptune is in a place supposed to encourage deceit and misrepresentation.

Cooperation continues to be fore-shadowed by the stars and through some organized movement great benefits will be enjoyed.

While the planetary rule indicates more efforts to reduce the high cost of living, there will be a strong tendency to speculate or risk money in any venture. Women may find their thoughts turned to romance.

Children born on this day may be

careless about money and inclined to take risks in business. They are likely to be extremely witty and brilliant. Copyright 1920 by the McClure Newspaper Syndicate.

MONDAY, MAY 31, 1920.

Jupiter rules strongly for good during the busy hours of this day, according to astrology. In the evening Venus is strongly adverse.

The rule is favorable for business and commerce, new commodities being indicated as most promising.

Rules of finance as well as rulers of people have a most auspicious outlook during this configuration.

All the signs point to the rise of new leaders and the passing of the old. This applies to labor and to business as well as to politics.

There is an aspect that seems to promise a coup d'etat by a man high in the national service.

Surprises seem to be foreshadowed in all lines of human endeavor. In other words, results due to big efforts in the world large endeavor will be astonishing, for occasional events are forecast.

The south now comes under a sway making for such upheavals and changes in thought.

Chicago has a rule for June that seems to promise events that will be productive of reactionary tendencies and bitter dissensions, for Uranus and Saturn will have sinister power to disturb and to estrange men and women.

Astrologers read that while Uranus and Saturn will wield a strong influence at the Republican convention, these same stars in aspects that cause division and contests will rule when the Democratic assembly in San Francisco.

Children come under a direction of the planets making for quick changes of opinion and a tendency to be swayed by emotions where their political views are concerned.

Great developments in medical science and announcements that will be of great moment to the human race are prognosticated.

Again strange crimes are foretold. Women will be prevalent in all classes of men and women, mania taking extraordinary forms owing to malice government of the emotions.

Persons whose birthdate is in May have a year of rather varied experiences. They are advised to exercise great care in all important changes.

Children born on this day may be inclined to be too care free. They should be wisely guided toward systematic habits of thought and action. They are likely to be talented.
